

[redacted]@t-online.de wird hinzugefügt.  
Wir sind gleich fertig.

The screenshot shows a standard Windows Internet Explorer 'Internet-E-Mail' configuration window. The title bar reads 'Internet-E-Mail [redacted]@t-online.de'. The main instruction is 'Geben Sie Ihren Benutzernamen und Ihr Kennwort für folgenden Server ein.' (Enter your username and password for the following server). The form contains three input fields: 'Server' with the value 'secureimap.t-online.de', 'Benutzername:' with the value '[redacted]@t-online.de', and 'Kennwort:' with masked characters '\*\*\*\*\*'. Below these fields is a checkbox labeled 'Dieses Kennwort in der Kennwortliste speichern' (Save this password in the password list), which is currently checked. At the bottom right, there are two buttons: 'OK' and 'Abbrechen' (Cancel).
